Shape up your product

With the eye-appealing shapes of our **sewed fibrous casings**, it's easy to give your brand the appearance of a specialty product it deserves.

Our sewn bag-type casings have a "hand-made" look for an appetising touch and feel. To consumers, this traditional look implies premium quality and the atmosphere of a classic small town meat market.

Typical Fibrous Sewing casing applications include salami, pepperoni, cervelat, cooked and semi-dry sausages as well as spreading.

Not just for looks

As is the case with all ViskoTeepak™ products, the Fibrous Sewing casings feature high

mechanical strength and an optimal balance between adhesion and peelability.

The casings are remarkably easy to handle and fast to stuff. Dense stuffing for better yield and an even curing process are also made possible by the industry-leading properties of the ViskoTeepak™ sewed fibrous casings.
