Statement concerning ISO 9001 – ISO 45001 – ISO 14001 certification

Dear customer,

Due to exceptional conditions during the audit recertification period, we are facing a delay in the renewal of the ISO 9001 and ISO 45001 certificate. The ISO 14001 certificate is still valid till 2022.

The first part of the audit, which was done remotely, started successfully at end of last year. The actual plant visit was planned in June 2021 and has been delayed.

This last part of the renewal audit has now been planned with the certification body on 16-17-30 September and on the first of October.

We expect the concerned certificates to be renewed after these dates.

Kurt Vandecraen
Quality Manager

Jan Maas
Manager S&E Control
