New Features on Partner Network: Estimated Lead Times and More

To read the whole article, please click on one of the links below.

At ViskoTeepak, we want Partner Network to be more than an information hub — it should be a practical tool that supports your daily work. The first new feature is the **Estimated Lead Times** page, where you can now see expected production lead times for our key product groups. Updated at least once a month, it helps you plan ahead, manage expectations, and stay aligned with your own schedules.

Coming soon is the **Sample Overview** page, which will give you a clear overview of your sample orders, similar to the existing Open Order Overview. These improvements are only the beginning. We will continue to develop Partner Network step by step, and your feedback plays a key role in shaping its future.
